

Use the film *Wild Europe*, from the Instruction tab on our class website, to answer the following questions before your next class period.

1. List at least four ways in which Europeans have impacted their environment, according to the film.
2. According to the film, what is the top way that the environment affects Rome each year?
3. According to the film, where are “Europe’s most prolific woodlands”?
4. Where was Europe’s first major solar powering station located?
5. Why was the Thames Barrier constructed in England?
